

Skimmed Goat Milk Powder

Skimmed Goat Milk Powder (SGMP) is the product of choice for applications where a lower fat content is required. It is very suitable for improving texture & taste. But also for standardization of dry matter or protein.

Besides the unique and easy to digest protein, SGMP provides key vitamins like B1, B2, B3, B5, B6, B12 and is also rich in calcium, phosphorus and magnesium, important minerals.¹⁰ This all makes SGMP an excellent choice as a wholesome low-fat dairy product for a wide range of applications.

Key Benefits

- ✓ Unique composition of highly digestible proteins, which are less allergenic than cow milk and can offer digestive comfort.¹⁻⁸
- ✓ High protein quality: high content of essential amino acids including BCAA, important for muscle building.^{11abc}
- ✓ Excellent product for applications in weight management because of low fat and high protein content.
- ✓ Naturally provides key vitamins like B1, B2, B3, B5, B6, B12 and is also rich in calcium, phosphorus and magnesium, important minerals.¹⁰
- ✓ Contains prebiotic oligosaccharides. These prebiotics are the “food” for the beneficial gut bacteria, promoting gut health and maintaining overall health and wellbeing.¹²⁻¹⁶
- ✓ Mild fresh flavour.
